LNWR, MR & L&YR.

List of Places, Works, Firms and Sidings
Connected with the LNWR, Midland and L&Y Railways,
for dealing with Traffic; Instructions for Labelling,
Routing and Invoicing.

Part One: A to K, Pages 1 to 179.

(182 Pages).

LONDON AND NORTH WESTERN,
MIDLAND, AND
LANCASHIRE AND YORKSHIRE RAILWAYS.

LIST
OF
**PLACES, WORKS, FIRMS,
AND SIDINGS,**

CONNECTED WITH THE
LONDON AND NORTH WESTERN,
MIDLAND, AND
LANCASHIRE AND YORKSHIRE RAILWAYS,

for which the three Companies named have special facilities for dealing with Traffic; together with Instructions as to labelling, routing, and invoicing of same.

LONDON AND NORTH WESTERN,
MIDLAND, AND
LANCASHIRE AND YORKSHIRE RAILWAYS.

L I S T
OF
**PLACES, WORKS, FIRMS,
AND SIDINGS,**

CONNECTED WITH THE
LONDON AND NORTH WESTERN,
MIDLAND, AND
LANCASHIRE AND YORKSHIRE RAILWAYS,

for which the three Companies named have special facilities for dealing with Traffic; together with Instructions as to labelling, routing, and invoicing of same.

EXPLANATORY NOTES.

* *Indicates siding connection with the London and North Western, Midland, or Lancashire and Yorkshire Railways.*

‡ *Indicates siding connection with Railways other than the London and North Western, Midland, or Lancashire and Yorkshire Railways, against which those Companies compete by cart or other means.*

The instructions relating to entries prefixed (A) DO NOT apply to Midland Stations, King's Norton to Bath and Bristol, and Credenhill to Swansea, all inclusive, and the separate instructions in operation at those stations must be strictly adhered to.

INSTRUCTIONS.

The information contained in this book shows how traffic, not otherwise specially consigned, must be labelled and invoiced when intended for the Places, Works, Firms, and Sidings connected with the London and North Western, Midland, and Lancashire and Yorkshire Railways, or any of them; also with other Railways where either of the Companies named have special facilities for dealing with traffic, *but the information must not of itself be taken as authority to forward traffic in the absence of instructions from your Head-quarters that through booking arrangements for Merchandise Traffic are established between the points.*

BOOKING INSTRUCTIONS IN REGARD TO SIDING TRAFFIC AT COMPETITIVE POINTS BETWEEN THE THREE COMPANIES (L. & N. W., MIDLAND, AND L. & Y.) OR ANY TWO OF THEM.

Where it is provided that traffic is to be sent direct to a Siding on the London and North Western or Midland Railways at a point where the forwarding Company has also a station, but not rail access to the particular Siding, the local rates are to be charged, except with Stations within a radius of 30 miles when the traffic must be sent "Particulars to follow" and rates applied for.

NOTE.—This Clause is not applicable to Stations on the Lancashire and Yorkshire Railway. In the event of any S. to S. traffic arising at such Stations consigned to a Siding on the London and North Western or Midland Railways at a place where the Lancashire and Yorkshire Co. also are at, application must be made to Head-quarters as to what rate must be charged, unless instructions are already held.

When traffic is labelled direct to a Siding, the name of the receiving Station must also be put on the labels.

Care must be taken that traffic is not sent to the Sidings, except for the person or firm shown herein as using the Siding, without special authority.

Articles for conveyance on specially constructed vehicles must not be accepted for delivery at, nor must waggons of a larger wheel base than 9 feet be forwarded to the Sidings, until it has been ascertained whether such articles and waggons can be safely conveyed over the Sidings.

Numerous cases have in the past occurred where, owing to similarity in names of Stations, traffic has been wrongly forwarded and invoiced, and in consequence seriously delayed; in addition to causing unnecessary haulage, clerkage, and payment of claims. Much useful information has been included in this issue respecting such places, and all concerned are requested to familiarise themselves with the instructions with a view to preventing future wrong sending.

In applying these instructions, in those cases where more than one Company is at the destination point, and no indication is given as to which Company the traffic is to be forwarded to, the forwarding Stations will be guided by the separate routing instructions they hold as to the forwarding of unconsigned traffic, *e.g.* :—

Acocks Green	...	<ul style="list-style-type: none"> L. & N. W. Stations will label and invoice to Birmingham, L. & N. W. Midland Stations will label and invoice to Birmingham, Midland. L. & Y. Stations will label and invoice to Birmingham, L. & N. W. or Midland, in accordance with the instructions they hold for the forwarding of unconsigned traffic for Birmingham.
Adlington (Lancashire)	}	<ul style="list-style-type: none"> L. & N. W. Stations will label and invoice to White Bear, L. & N. W. L. & Y. Stations will label and invoice to Adlington, L. & Y. Midland Stations will label and invoice to either White Bear, L. & N. W., or Adlington, L. & Y., in accordance with the instructions they hold for the forwarding of unconsigned traffic for Adlington (Lancashire).
Old Mill (near Barnsley)	}	<ul style="list-style-type: none"> Midland Stations will label and invoice to Barnsley, Midland. L. & Y. Stations will label and invoice to Barnsley, L. & Y. L. & N. W. Stations will label and invoice to Barnsley, L. & Y. or Midland, in accordance with the instructions they hold for the forwarding of unconsigned traffic for Barnsley.
Aspden, T. A.	...	All Companies will label and invoice to Daisyfield, L. & Y.

Tranship traffic is to be subject to the general instructions relating thereto.

Circulars advising you of additions and alterations will be issued from time to time as found necessary, and these must be carefully and neatly posted up in strict alphabetical order.

In order that the lists may be of the greatest possible value, prompt notification must be given through the ordinary channels to your Headquarters of all necessary alterations and additions as affecting the Places, Works, Firms, and Sidings traffic under your supervision.

LIST
OF
PLACES, WORKS, FIRMS, and SIDINGS,
CONNECTED WITH THE
LONDON AND NORTH WESTERN,
MIDLAND, AND
LANCASHIRE AND YORKSHIRE RAILWAYS,

for which the three Companies named have special facilities for dealing with Traffic; together
with Instructions as to labelling, routing, and invoicing of same.
